ABOUT ME

My name is Haneen, a girl who really enjoys developing websites in order to facilitate people's work.
My interest in developing websites started since I studied at the university, and I can say that my passion increases every day in this work.
Every day I gain new skills and learn something new.
We need creative thinking and the ability to find solutions. Which makes the work fun and not boring.
I have a very big ambition to reach high places and touch the sky, and I am sure that will happen one day.
